THE UNIVERSITY OF ALBERTA STAFF BULLETIN

EDMONTON, ALBERTA T6G 2E1

MAY 4, 1972

APPOINTMENT

G. ALVIN LE PAGE, a native of Medicine Hat and a graduate of this University, has been named Director of the McEachern Cancer Research Laboratory.

The appointment, effective July 1, 1972, was announced by the University's Board of Governors.

Dr. LePage is presently Chief of the Pharmacology Section in the Department of Developmental Therapeutics, and Professor of Pharmacology at the M. D. Anderson Hospital and Tumor Institute at the University of Texas. He will succeed A. R. P. PATERSON, Professor of Biochemistry, who has resigned in order to devote all of his time to teaching and research.

After receiving his Bachelor of Science and Master of Science degrees from this University, Dr. LePage attended the University of Wisconsin and obtained his PhD in Biochemistry. He then spent one year as a professional assistant at the McArdle Memorial Laboratory for Cancer Research at the University of Wisconsin, and one year as a bacteriologist and biochemist with the Food and Drug Administration Laboratories in Ottawa.

In 1945 Dr. LePage returned to the McArdle Memorial Laboratory as an instructor in oncology, the branch of medicine dealing with tumors. He remained there until 1958, doing cancer research and graduate teaching. He was appointed full professor in 1954.

He became Program Director in oncology at the Stanford University Research Institute in California in 1958 and was appointed Chairman of Stanford's Department of Biochemical Oncology in 1961.

Three years ago, Dr. LePage accepted his present position in Houston, Texas. There,

he conducted research on drugs that retard the growth of malignant cells.

He is a member of a number of professional and scientific associations, including the American Chemical Society, the American Society of Biological Chemists, and the American Association for Cancer Research.

GENERAL FACULTIES COUNCIL

By FOLIO Staff

The regular meeting of General Faculties Council was held Monday, April 24, 1972.

LAW QUOTA APPROVED

Council approved a recommendation by G. H. L. FRIDMAN, Dean of the Faculty of Law, that a quota be imposed upon enrolment in first year Law of the Law program.

In deciding how many students should be admitted, it was agreed that "whereas there are special considerations for the year 1972-73 arising from the operation of the combined program and the automatic entitlement of some students in that program to admission into this faculty, it is recommended that for that year, enrolment in first year Law be restricted to 180 and that thereafter the quota be determined in such a way as to yield a maximum enrolment of 500."

Council defeated a motion that the quota be determined according to the national student/staff ratio, which is 17/1.

ENGINEERING PROPOSAL TABLED

A proposal to limit the number of foreign students admitted to the Faculty of Engineering has been tabled, pending advice from the University Solicitors.

COURSE NUMBERING SYSTEM

Four recommendations regarding the course numbering system were approved by Council. They are as follows:

"THAT there be no change in the current numbering system but that departments reuse numbers as soon as courses are deleted to overcome the current situation caused by the division of many courses at the same time.

"THAT wherever possible one subject abbreviation be used for each department except where departures from this general rule have been approved by the appropriate

faculty council to take special situations into account.

"THAT course abbreviations be established in the case of new subjects by the appropriate faculty council.

"THAT interdisciplinary courses continue to be referred to as INT D but that they be listed among the courses for all participating departments as well as in a section titled 'Interdisciplinary Courses'."

REPORT ON HUMAN RESEARCH

At the February 28 meeting of Council, members adopted the report of the Deans' Council *ad hoc* Committee on Human Research. The report proposed the establishment of a General Policy Committee on Human Research, but no specific action was taken at the time. At Monday's meeting, Council voted that the duties of the General Policy Committee be added to those of the *ad hoc* Committee on Research.

PHYSICAL EXAMINATIONS

Approval was given to the Faculty of Physical Education's request that all students entering the Bachelor of Physical Education program be required to undergo a physical examination. The requirement was formerly applied to all students entering the University but was abolished earlier this year.

NEW MEMBERS

The following persons have been elected or appointed to General Faculties Council.

Students' Council

Gerald A. Riskin
Patrick J. Delaney

Graduate Students' Association

Dave McMurray

CONSTRUCTION REPORT

Eight major buildings are under construction, five of them scheduled for completion later this year, according to the April Progress Report of the Campus Development Office.

Basic Medical Sciences is substantially complete, apart from the exterior of the building, which should be finished by May 31. The cost of the building is approximately six million dollars.

The Humanities Centre, Arts II, is 68 percent complete and five weeks behind its completion schedule for July this year. Installation of windows and precast is practically complete.

Chemistry 2 is eleven weeks behind its revised schedule for completion December this year. The building is 41 percent finished and will cost almost 4.5 million dollars.

Progress on the Mechanical Engineering Building has improved sufficiently that it may be finished in time for fall term. The project is 85 percent complete and originally was scheduled to be finished by the end of July this year.

Warm weather has also improved progress on the Fine Arts Building, which is now 55 percent complete. It is ten weeks behind its original completion schedule for September.

Rutherford Library II was also to have been completed in September, but it is eight weeks behind schedule. It is 45 percent complete.

Education II is 8 percent complete and on schedule.

Students' Union Housing is two and one-half weeks behind its revised completion schedule for next January. Work is progressing on the building from south to north, and apartments in the south end should be available for occupancy for fall term.

VISITORS

■ FRANK HARARY, Professor at the University of Michigan, presented a colloquium to the Department of Mathematics here.

PEOPLE

■ REGULA QURESHI, graduate student in the Department of Music, presented a paper at a conference on tape recording and oral history organized by the Provincial Museum and Archives in Edmonton.

■ U. M. VON MAYDELL, Assistant Professor of Computing Science, has been invited to give seminars at the Systems Department of the IBM San Jose Research Laboratory and the Department of Operations Research at the Naval Postgraduate School in Monterey, California.

■ VIOLET ARCHER, Professor of Music, has received the Performing and Creative Award

of the City of Edmonton. Two of her compositions were recently performed on the national network of the Canadian Broadcasting Corporation.

■ WILLIAM PRESHING, Director of Institutional Research; J. D. PEYTON, Assistant Professor of Psychology; and R. E. ROGERS, Associate Professor of Business Administration and Commerce, conducted seminars at the Institute of Canadian Bankers' Certificate Program here on campus.

■ NICO STEHR, Assistant Professor of Sociology, has been appointed Associate Editor of the Pacific Sociological Review.

NOTICES

SOCIOLOGY-ANTHROPOLOGY MEETING

The 14th Annual Meeting of the Western Association of Sociology and Anthropology will be held in Calgary in late December of this year. The theme will be "Alternative values and structures."

A. MATEJKO, Associate Professor of Sociology, will be chairman of the conference on "Power and power elite." Anyone wishing to present a paper on that topic is asked to contact Dr. Matejko to discuss the proposal. Papers must be submitted before August 31.

ART RENTALS

Eighty new paintings, prints, drawings, and batiks are now available through the Edmonton Art Gallery's art rental program.

The new acquisitions include works by William Perehudoff, Dorothy Knowles, D. T. Chester, Marion Nicoll, Marino Marini, and Graham Peacock.

SUMMER SCHOOL ON THEORETICAL PHYSICS

Plans have been completed for an international summer school on relativity, astrophysics, and cosmology at the Banff School of Fine Arts, August 13 to 27. Seven of the top research workers in these areas have been attracted from several different countries to lecture at the school. Since its inception in 1957, the annual summer school has established a reputation as one of the most important events on the world physics calendar, attracting several Nobel Prize winners as lecturers.

The conference was planned by W. ISRAEL, Chairman, and H. SCHIFF, Vice-Chairman, of the Theoretical Physics Division of the Canadian Association of Physicists. Both are Professors of Physics here.

PATHOLOGY LECTURES

K. E. HELLSTROM, Professor of Pathology at the University of Washington School of Medicine, will present lectures to the Medical Research Council Transplantation Group.

Dr. Hellstrom will discuss "The role of blocking factors in human immunity" today at 4 p.m. in Room 2-115, Clinical Sciences Building. His topic will be "Human tumor immunity" Friday at noon in the auditorium of the W.W. Cross Cancer Institute.

COMPUTING SERVICES

Registrations are still being accepted for the following non-credit courses offered by Computing Services: Text Editing and Formatting, APL, Cobol, and MTS overview.

For further information, telephone F. CRUDEN, 432-3975.

TRACK CLUB

The Golden Bears Track Team has formed a year-round Track and Field Club which will meet every Monday, Wednesday, and Friday. It is open to all adult athletes, senior high school students, and joggers, both men and women. The club is to be patterned after the European sports clubs, which include social events. Those interested in joining should approach BRIAN MC CALDER through the University Athletic Office.

TRAFFIC CIRCULATION

The following two announcements affecting traffic circulation have been made by the Department of Physical Plant.

As soon as the construction hoarding west of the Structural Laboratory has been removed 115 Street between 89 and 90 Avenues will become one-way north.

Weather permitting, road paving maintenance will commence at the intersection of 89 Avenue and 114 Street during the first two weeks of May. The work is expected to take two days.

THIS WEEK AND NEXT

Listings must reach the Editor by 9 a.m. the Friday prior to publication. Written notification is preferred. Compiled by NORMA GUTTERIDGE, 432-4991.
